1. RECIPIENTS

This call for applications is intended for students who are less than 35 years old on January 1st 2025, who are citizens of European Union countries, Iceland, Norway, Liechtenstein, San Marino, Switzerland, and Vatican City and for students who are resident in Italy but are citizens of non-EU countries:

- who enroll at the University of Trento for the first year or subsequent years in the following courses:
 - Undergraduate degrees
 - Master's degrees
 - Five- and six-year Master's degrees
 - PhD programs, who are not benefiting from other scholarships or other kinds of funds for the PhD program, nor have been re-granted a paid leave of absence
- who enroll at the Conservatory of Music or another University Institute of Trento for the first year or subsequent years for the following courses:
 - Undergraduate degree from the Advanced School for Linguistic Mediators in Trento (SSML) and from the "Trentino Art Academy" Advanced Art Institute and undergraduate degree from the Conservatory of Music of Trento "F.A. Bonporti"
 - Master's degree from the Conservatory of Music of Trento "F.A. Bonporti"
- who intend to transfer to the University of Trento, the Conservatory or a University Institute of Trento from another University or Institute.

In case of simultaneous enrolment for a.y. 2025-2026 in two courses of study, those who are already enrolled in a course of study in years subsequent to the first, and who have already taken advantage of the benefits for the right to study, cannot consider the second enrolment as the reference for the purpose of obtaining the same benefits. Only if they have not already taken advantage of the benefits for the right to study, students can request the aforementioned benefits (which they have never requested) for their second course of study.

NOTE

The application for benefits must be submitted regardless of the actual enrollment for the a.y. 2025-2026 for which different deadlines may be envisaged falling after the deadline for submission of this application, including if the student does not know the results of the admission test or has not yet enrolled in the course for which he/she is submitting the application for benefits (for example, a student who is not yet enrolled

in a Master's degree program on 8th September 2025 must still submit the application for benefits within the deadlines set out in paragraph 10.2 of this call).

SINGLE-CYCLE MASTER'S DEGREE IN MEDICINE AND SURGERY

Students enrolling for the "filter semester" at the University of Trento, according to the provisions of Legislative Decree no. 71/2025, must submit the application for benefits by the deadlines indicated in paragraph 10.2.

For those who will enroll in the "filter semester" at another university and then matriculate in Trento in the second semester, different deadlines may be established in light of the implementing decrees to be adopted by the Ministry. In this regard, an addendum to the call will likely be approved by the end of July, and will be appropriately publicized on the institution's website.

2. STUDENT AID

The income and merit-based benefits available for "capable and worthy students regardless of their financial condition" (art.34 of the Constitution) are the following:

- Scholarship
- [accommodation](#) in collective residences and flats
- exemption from the [provincial student welfare tax](#)
- total exemption from university [tuition fees](#).

Students of the Advanced School for Linguistic Mediators in Trento and the *Trentino Art Academy* Advanced Art Institute are not eligible for the total exemption from university [tuition fees](#).

SINGLE-CYCLE MASTER'S DEGREE IN MEDICINE AND SURGERY

Following the approval of the implementing ministerial decrees, the call for applications will be amended, likely by the end of July, in order to establish the terms for accessing benefits for the students concerned, and to set a different deadline for those who, after completing the "filter semester" at another university, will enroll in the Medicine and Surgery degree program at the University of Trento. This addendum will likely be

approved by the end of July and will be appropriately publicized on the institution's website.

3. REQUIREMENTS

3.1. FINANCIAL CONDITION

According to the Resolution by Provincial Council no. 808 dated June 6th 2025, the financial situation will be defined based on [ISEE 2025](#) (Equivalent Financial Situation Indicator) issued for **university education benefits** and [ISPE](#) (Equivalent Asset Indicator).

The limit of the [ISEE](#) for university education benefits for a student to qualify for the benefits is **€ 26.000,00** and **€ 52.000,00** for the [ISPE](#).

Students must meet the two limits (ISEE and ISPE) jointly: if just one of the two limit exceeds, the student does not satisfy the financial requirement and is not eligible for the benefit.

3.2. MERIT

Merit is based on the number of [credits](#) earned and recorded by the relevant Offices in relation to the year of first enrolment (for clarifications about the meaning of "[year of first enrolment](#)" please carefully read the corresponding entry in the glossary). When calculating merit, Opera Universitaria will not consider any [credits](#) awarded for competencies acquired prior to enrolment (CPA and CMPA).

3.2.1. YEARS FOLLOWING THE FIRST

Students enrolled in years subsequent to the first must fulfill a merit requirement based on the number of [credits](#) earned and registered **by August 5th 2025 (by 30th September 2025 for students of the Conservatory, the part-time degree course in Business Management, the master's degree courses in Civil Engineering, and Environmental and Land Engineering, European and International Studies and the six year Master's degree course in Medicine and Surgery)**, starting from the [year of first enrolment](#). [Tables 1](#) and [2](#) in the Appendix show the minimum merit requirement for accessing the benefits with reference to the [year of first enrolment](#).

For students with disabilities, please refer to [point 8](#).

3.2.2. BONUS

To reach the minimum merit requirement referred to in [tables 1](#) and [2](#) in the Appendix, in addition to the earned [credits](#), the

student can also use a bonus of up to a maximum of five (5) credits during the entire course of the university careers.

If the bonus credits have not been used during the current academic year, they can be used during the following years. If the students have already used the bonuses in previous years to request the benefits (including during a three-year degree programme either at Trento University or at another University or University Institute) they will have a number of bonus credits given by the difference between the maximum 5 credits available and the credits already employed.

Example: *a student enrolled for the a.y. 2024-2025 in the Economics and Management degree programme (40 [credits](#)^G required), has earned 36 [credits](#)^G by August 05th 2025: to get the scholarship, the student uses 4 bonus credits and will only have 1 credit left to be used in the following years to reach the minimum merit requirement.*

3.2.3. STUDENTS TRANSFERRING TO A DIFFERENT DEGREE PROGRAM WITHIN THE UNIVERSITY OF TRENTO

Students transferring to a different degree program within the University of Trento must meet the merit requirements of the new degree program referring to the year of first enrolment (as per [Tables 1](#) and [2](#) in the Appendix); [credits](#) obtained and recorded in the student's career by **5th August 2025** may be counted in the merit calculation, in relation to the year of first enrolment. Credits not recognized in the new course cannot be used when applying for benefits in subsequent academic years.

Example: *a student enrolled for the a.y. 2024/2025 in the Business Administration degree programme who, for the AY 2025/2026 transfers to the Economics and Management degree programme, must have earned 40 [credits](#)^G by August 5th 2025, instead of 35.*

3.2.4. STUDENTS TRANSFERRING FROM ANOTHER UNIVERSITY

Students transferring from other Universities must fulfill a merit requirement based on the number of [credits](#) earned and recorded by August 5th 2025 at their former University, with reference to the [year of first enrolment](#). [Credits](#) not recognized by the University of Trento cannot be used to apply for benefits in the following academic years. [Tables 1](#) and [2](#) in the Appendix

show the minimum merit requirement for accessing the benefits with reference to the [year of first enrolment](#).

3.2.5. FIRST-YEAR STUDENTS

All first-year students must meet special merit requirements to obtain the payment of the scholarship, as specified in [section 4.2.1](#).

3.2.6. PHD

Opera Universitaria requires students enrolled in PhD courses to be regularly registered to the a.y. 2025-2026.

4. SCHOLARSHIP

4.1.AMOUNT

The scholarship amount varies according to the financial situation of the student's [household](#), the municipality of residence and the applicant's housing status.

Students with an [ISEE](#) indicator equal to or less than two-thirds of the threshold value set forth in [point 3.1](#), will be eligible for a scholarship whose maximum amount is determined by the resolution of the Provincial Council no. 808 of 6 June 2025 subject to any adjustments provided by ministerial decree no of February 28th 2025.

For students with an [ISEE](#) indicator exceeding two thirds of the threshold value and up to the maximum limit, the scholarship is progressively reduced up to half of the maximum amount.

For students with an [ISEE](#) indicator less than or equal to half the maximum set limit, the amount of the due grant is increased by 15%.

For female students enrolled in [S.T.E.M.](#) courses the amount of the grant is increased by 20% (this is not cumulative with the above-mentioned 15%).

For those who, starting from a.y. 2022-2023, are enrolled in two courses at the same time, a 20% supplement to the scholarship obtained each year will be granted, provided that they maintain the merit requirements specified in the Opera Universitaria call for the course for which they receive the scholarship, as well as those outlined in the Ministerial Decree No. 1320/2021 for the second course, for the entire duration of their studies. Opera Universitaria will pay this supplement in relation to the fulfillment of the relative requirements year by year.

The amount of the scholarship for the last semester corresponds to half of the annual scholarship amount.

The increase in the scholarship amounts for the a.y. 2025-2026 are allocated thanks to the additional resources provided by

the PNRR (National Recovery and Resilience Plan), with funding from the European Union - Next Generation EU and investment 1.7 "Scholarships for access to university" of Mission 4 Component 1.

4.1.1.RESIDENT SCHOLARSHIP

The scholarship amount for students residing in "local" municipalities (as listed in [Tables 3](#) and [4](#) in the Appendix), ranges from a minimum of € 1,425.13 to a maximum of € 2,850.26, depending on their financial situation.

4.1.2. SCHOLARSHIP FOR COMMUTING STUDENTS

The scholarship amount for students residing in "commuting" municipalities (as listed in [Tables 3](#) and [4](#) in the Appendix), ranges from a minimum of € 2,066.43 to a maximum of € 4,132.86, depending on their financial situation.

4.1.3. NON-RESIDENT SCHOLARSHIP

The scholarship amount for students who reside in "non-local" municipalities (as listed in [Tables 3](#) and [4](#) in the Appendix) and who rent accommodation near the course location for at least 10 months during a.y. 2025-2026 (5 months for students applying for the scholarship only for the last semester), ranges from a minimum of € 3,536.05 to a maximum of € 7,072.10, depending on their financial situation.

Students who do not live in the facilities provided by Opera Universitaria are required to upload on the ONLINE APPLICATION section of the www.operauni.tn.it from **September 9th 2025 to October 15th 2025, a copy of the rental agreement⁶** registered in their name (or copy of the accommodation assignment if staying in a collective residence) with a minimum term of 10 months during the a.y. 2025-2026 (between September 2025 and August 2026). Students who, in previous years, delivered a multi-year [rental agreement](#) to Opera Universitaria, must provide evidence that the rental agreement is also valid for a.y. 2025-2026 by uploading the supporting documentation to the ONLINE APPLICATION from September 9th 2025 to October 15th 2025 (see [rental agreement](#)). If the student signed a multi-year rental agreement with "cedolare secca" option and he/she has already sent it to Opera Universitaria the previous year, the student, instead of uploading the documentation again, can certify autonomously that he/she still lives there by uploading in the online procedure the form "Contract self-statement" published on the www.operauni.tn.it website in the [Scholarship/Forms](#) section.

NOTE

For the purpose of awarding the 'off-campus' scholarship, rental contracts submitted after the deadline of October 15th, 2025 deadline, will not be considered under any circumstances, except for the cases specified below

Students enrolling after October 15th 2025 in a Master's degree or in a PhD program or who will enroll in another degree program as a result of the re-selections made by the University of Trento, may upload the [rental agreement](#) (or access facilities provided by Opera Universitaria) by December 31st 2025, obtaining a "non-resident" scholarship for a period proportional to the months of actual rental agreement until August 31st 2026.

SINGLE-CYCLE MASTER'S DEGREE IN MEDICINE AND SURGERY

For students who will enroll in the 'filter semester' as outlined in Legislative Decree No. 71/2025, different deadlines may be set, depending on the implementing decrees to be adopted by the Ministry. Opera Universitaria will approve an addition to the call by the end of July, which will be appropriately publicized on the institution's website.

Students residing in any municipality who pay for accommodation and meet the regulation's requirements to be considered 'independent' are also considered 'not resident'. I.e. this includes having adequate income capacity from employment or similar (at least € 9,000 per year, for at least two years) and who have not been resident, for at least two years from the application date. In their family of origin's accommodation unit or an accommodation owned a family member. These students will have to upload their housing documentation by the deadline of October 15th 2025.

Students who, upon reaching the age of majority, live away from their family of origin based on a decision by the judicial authority ("care leavers") and meet the economic and merit requirements specified in this call, are still considered "**non-resident**" students, regardless of their municipality of residence.

"**Commuting**" students are also:

- residents in "non-resident" municipalities who do not rent accommodation in the proximity of the course location;

- residents in “non-resident” municipalities who rent accommodation in the proximity of the course location and do not upload in the ONLINE APPLICATION a copy of the [rental agreement](#) or the “Contract self-statement” form in case of a multi-year rental agreement with “cedolare secca” **by the deadline set out in the Call for application;**
- students residing in “non-local” municipalities who obtained an [accommodation](#) and, for any reason, do not directly pay the housing fee since they have been assigned a free accommodation place or benefit from a rent contribution granted by the University of Trento or another Institution.

For students spending time in Italy or abroad for internships or international mobility programs, for which a financial contribution is provided by Opera Universitaria, by the University of Trento or by another Institution, the “non-resident” scholarship will be disbursed only for the months spent in Trento (as proved by the [rental agreement](#), whereas a “resident” scholarship will be disbursed during the months spent elsewhere, provided that the overall period spent in Trento and in another Institution must be of at least 10 months.

If the student submits a [rental agreement](#) of at least 10 months by October 15th 2025 and later participates in the Erasmus+ program, they will be required to return part of the non-resident scholarship in the second semester, after the University of Trento confirms the student’s actual departure abroad.

Students who take part, in Italy or abroad, in internships, thesis research, or other international mobility programs may retain the full amount of their “non-resident” scholarship if all the following conditions are met:

- the participation to the study project is certified by the University of Trento;
- they do not benefit from any another scholarship, grant or remuneration;
- they must send a copy of the [rental agreement](#), whether respectively in Italy or abroad, provided that the rental period at least 10 months.

For students with disabilities, please refer to [point 8](#).

The scholarship will be disbursed to eligible students exclusively by transfer to a current account (or credited to a prepaid card able to receive bank transfers without amount limits) held or jointly held in the student’s name. When filling out the application, and in any case no later than October 31st 2025, the student must indicate their [IBAN](#) code by clicking on “Accedi ai dati anagrafici e bancari”.

Otherwise, if due, the scholarship will be credited starting from February 2026.

4.2.1. FIRST-YEAR STUDENTS

For the total amount of the scholarship to be disbursed, the student must meet a certain merit requirement determined by the number of [credits](#) earned and registered by the relevant offices during his/her studies. Any credits awarded for skills acquired prior to enrollment (CPA and CMPA) cannot be considered in the merit calculation.

For students with disabilities, reduced merit requirements may be considered as specified in [point 8](#).

Students enrolled in **bachelor's degree programs or first-level diploma courses and single-cycle master's degree programs** will receive **20%** of the total amount of the scholarship by November 10th 2025. The **30%** of the total amount of the scholarship will be disbursed by December 2025.

For students with disabilities, please refer to [point 8](#).

The disbursement of this amount will be made automatically, after verifying the achievement of the merit recorded in the student's academic career, starting from March 2026.

SINGLE-CYCLE MASTER'S DEGREE IN MEDICINE AND SURGERY

For students who will enroll in the 'filter semester' as outlined in Legislative Decree No. 71/2025, different deadlines may be set, depending on the implementing decrees to be adopted by the Ministry. Opera Universitaria will approve an addition to the call by the end of July.

4.2.2. YEARS FOLLOWING THE FIRST

The scholarship will be paid also according to the timing of disbursement of the additional resources provided as part of the PNRR: in a single installment by the end of December 2025, or in two tranches, with the first disbursed by the end of December 2025. In the case of payment in two installments, and subject to the availability of resources, the full amount may be awarded to beneficiaries with a more disadvantaged economic condition.

7. DURATION, EXCLUSION AND REVOCATION OF BENEFITS

7.1.DURATION OF BENEFITS

The benefits under this Call are awarded as follows:

- for students enrolled in **bachelor's degree programmes**:

CREDITS

Credits are a means of measuring the learning activities, as defined in Legislative Decree no. 509/1999. For each study program, the teaching department in charge at each university assigns a number of credits to the various teaching activities (lectures, practical sessions, internships, seminars, theses, etc.).

DICHIARAZIONE SOSTITUTIVA UNICA

The Dichiarazione Sostitutiva Unica (DSU), referred to in Prime Ministerial Decree no. 159 December 5th 2013, as amended, is a document that contains the personal details, income and asset data of the student's household. This document must be filled out to calculate the ISEE for accessing welfare benefits. The data contained in the DSU are partly self-declared and partly obtained from the Italian Inland Revenue and INPS. For the self-declared sections, the person filling out the DSU (declarant) assumes responsibility, including under criminal law, for the statements made. The DSU is made up of several modules and sections to be filled out according to the household characteristics and the type of benefit requested: for the attestazione ISEE for university student benefits, the DSU must be entirely filled out (DSU "integrale").

The scholarships and compensation for paid student collaborations in the year 2023 must be declared for ISEE purposes.

ESSE3

Esse3 is the management system used by the University of Trento to record all the events relating to a study program.

HOUSEHOLD

The student's household is composed of the persons officially recorded as family members at the date of submitting the Dichiarazione Sostitutiva Unica, subject to the provisions of Article 3 of Prime Ministerial Decree No. 159 of December 05th 2013.

If parents do not co-habit with the applicant student, the applicant is part of their parents' household, unless they are an orphan of both parents, a "care leaver" or both of the following requirements are satisfied:

- a. the student has resided outside the original family's dwelling for at least two years prior to the date of submitting the Dichiarazione Sostitutiva Unica, living in a housing unit not owned by a household member;
- b. the student's income, as an employed worker or similar worker, declared in their tax return for at least two years is not less than 9.000 euros per year.

For further information please refer to Article 8 of Prime Ministerial Decree No. 159 of December 5th 2013.

IBAN

The IBAN (International Bank Account Number) is an international code made up as follows:

- 2 letters representing the Nation (IT for Italy)
- 2 control figures
- The national BBAN code.

EXAMPLE OF IBAN CODE

| INTERNAZIONALE CODE | CONTROL FIGURE | CIN | ABI | CAB (BRANCH CODE) | BANK ACCOUNT NUMBER |
|------------------------|-------------------|-----|-------|----------------------|---------------------------|
| IT | 12 | L | 12345 | 12345 | 123456789012 |

ISEE

ISEE is the Equivalent Financial Situation Indicator, the attestation of which enables access to welfare benefits or utilities under favorable conditions. The ISEE is derived from the ratio of the Financial Situation Indicator (ISE = absolute value given by the sum of income and 20% of movable and immovable assets owned by household members) to the parameter derived

from the equivalence scale shown below, including the established increases.

Equivalence scale:

| HOUSEHOLD MEMBERS | PARAMETER |
|--------------------------|------------------|
| 1 | 1,00 |
| 2 | 1,57 |
| 3 | 2,04 |
| 4 | 2,46 |
| 5 | 2,85 |

The following increases apply:

- 0,35 for each additional member;
- 0,5 for each member with moderate or severe disability or non-self-sufficient;
- 0,2 if the household includes three children, 0.35 in case of four children, 0.5 in case of at least five children;
- 0,2 for households with minor children, raised to 0.3 if there is at least one child under three years of age, and both parents or the sole parent have carried out working or business activities for at least six months in the year of the declared income. The increase also applies to households exclusively made up of only one non-working parent and minor children. For the sole purpose of the increase, the non-cohabiting parent, who is not married to the other parent, who has recognized the children, is part of the household, unless the specific cases referred to in Article 7, paragraph 1 of Prime Ministerial Decree No. 159 of 05 December 2013 apply.

To determine the parameter of the equivalence scale, the household member who benefits from ongoing residential social and health benefits or is a non-relative cohabiting member of the household and is not considered as an independent household, increases the equivalence scale by 1.

The ISEE indicator differs according to the type of benefit requested and is valid from the date of submission of the Dichiarazione Sostitutiva Unica until 31 December. The Certification submitted as of January 2025 refers to the income received in the second calendar year prior to the Dichiarazione Sostitutiva Unica.

For the purpose of calculating the ISEE for university student benefits, specific criteria apply to the definition of household (see "Household" definition).

Scholarships awarded in the year 2023 must be declared for ISEE purposes as tax-exempt income/assistance payments.

Only the amount of the scholarship received in 2023 in relation to the corresponding parameter of the equivalence scale will be subtracted from the ISEE value. Other tax-exempt incomes (e.g. remuneration received for student collaborations, mobility supplement...) will not be deducted from the ISEE value.

ISEE CORRENTE

The ISEE corrente can be requested when, although you already have a valid ordinary ISEE, there is a change in your work situation or an interruption of social security and welfare benefits and allowances that fall outside your total income (as declared for IRPEF purposes) for one or more family members; or, when there is a more than 25% decrease in the overall income capacity of your household. For more details see art. 10 of Legislative Decree no. 147 of September 15th 2017, as amended (Article 28-

bis of Decree Law No. 34 of April 30th 2019, converted with amendments by Law 58 of June 28th 2019).

ISEE PARIFICATO

The ISEE parificato is the indicator of the equivalent financial situation of a student's household residing abroad (Article 8(5) of Prime Minister's Decree No. 159 dated December 5th 2013), as identified under the Memorandum of Understanding entered into on June 3rd 2015 between the National Association of Bodies for the Right to University Education (ANDISU) and the Tax Support Centres (CAFs) enrolled in the Register of CAFs for employees who are members of the National Council.

ISPE

ISPE is the Equivalent Asset Indicator that is calculated by dividing the asset indicator ($ISP = \text{total real estate assets} - \text{deductions and exemptions} + (\text{total movable assets} - \text{deductions and exemptions})$) of the applicant's household by the equivalence scale coefficient (see "ISEE"). ISPE refers to the movable and immovable assets of the second calendar year preceding the submission of the Dichiarazione Sostitutiva Unica.

NON-COMPLIANT ISEE

Non-compliant ISEE is when INPS identifies any omissions/discrepancies with respect to the party's statements. For more details see article 11, paragraph 5 of Prime Ministerial Decree no. 159 of December 5th 2013 and Article 3 of Decree of November 7th 2014.

PARTICULARLY POOR COUNTRIES

As laid down by Ministerial Decree no. 166 of March 2nd 2025, the following countries are considered "particularly poor": Afghanistan, Angola, Bangladesh, Benin, Burkina Faso, Burundi, Cambodia, Central African Republic, Chad, Comoros, Democratic People's Republic of Korea, Democratic Republic of the Congo, Djibouti, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Lao People's Democratic Republic, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mozambique, Myanmar, Nepal, Niger, Rwanda, Sao Tome and Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, South Sudan, Sudan, Syrian Arab Republic, Tanzania, Timor-Leste, Togo, Tuvalu, Uganda, Yemen, Zambia.

PROVINCIAL STUDENT WELFARE TAX

The term "provincial student welfare tax" means the tax provided for by Article 3, paragraph 20, of Law no. 549 of December 28th 1995 and regulated, for the Autonomous Province of Trento, by Provincial Law no. 1 of January 7th 1997. The tax is due from students enrolling in study programs at the University of Trento, as well as at legally recognised universities, university institutes and higher education university institutes, with head office in the province of Trento and that award legally recognised

study qualifications. The amount of the tax for A.Y. 2025/2026 is determined by resolution of the Provincial Government no. 333 of 3 March 2017 and no. 341 of 2 March 2018.

RENTAL AGREEMENT

Rental agreements must be signed and registered with the Italian Inland Revenue in the student's name and be valid for at least 10 months during a.y. 2025-2026 (between September 2025 and August 2026). The copy of the agreement must contain the registration details and be uploaded to the online procedure in PDF format.

If an agreement or a multi-year agreement is renewed, to prove its validity for a.y. 2025-2026 it is necessary to submit either a copy of the F23 tax form (or an electronic receipt) proving payment of the registration tax, or documents proving that the "cedolare secca" option has been chosen. Students who have entered into a multi-year agreement choosing the "cedolare secca" option and who have already delivered it to Opera Universitaria, only need to provide a self-certification during the term of the agreement, stating that they are still the tenant of the same accommodation; for this purpose, the "Contract self-statement" form, available in the [Scholarships/Forms](https://www.operauni.tn.it) section of the website www.operauni.tn.it, must be uploaded to the online application.

TUITION FEES

Tuition fees for the University of Trento are the fixed-rate university contributions and the variable contributions (ISEE calculated) required to the student who enrolls in a study program. For information on tuitions fees

payable to the Conservatory of Music or to other University Institutes please contact the relevant administrative offices.

YEAR OF FIRST ENROLMENT

The term “year of first enrolment” means the enrolment, for the first time, in the first year of a study program attended at any University (or Institutes that award academic qualifications), except for students who fulfill the requirements set out in paragraph (a) or (b):

- a. who enrolled for the first time in the Italian University system in an undergraduate or single-cycle Master’s degrees program in a.y. 2024-2025; have withdrawn from their studies and intend to enroll for the a.y. 2025-2026 in a course within a different degree class; have returned any benefits received for a.y. 2024-2025 and paid any outstanding amounts due to both the University and the Student Welfare Body;
- b. who enrolled for the first time in the Italian University system in an undergraduate or single-cycle Master’s degree program in a.y. 2019-2020 or in subsequent academic years, have withdrawn from their studies at the end of the first year and enrolled for the next academic year in a course within a different degree class (or, in case of foreign students, have transferred to a course within a different degree class, without credit transfer); have returned any benefits received in the previous course and have paid any outstanding amounts due to both the University and the Student Welfare Body.

If the student has benefited from a shorter duration of their studies and therefore from the recognition of previous examinations, the year in which they first enrolled at the University for the first time will be treated as the year of his/her first enrolment.

Any periods of interruption are not taken into consideration when assessing merit if the student has submitted an application for “temporary suspension” of study in specific situations, namely:

- a) the birth of a child (for female students); b) serious infirmities. Any academic action carried out during the interruption period will automatically deprive the student of their right to such benefit.
